

# Advising Board of Directors and Stockholders Transactions

In today's legal environment, a company's board of directors continues to fall under an intense public spotlight. How to address risk and liability and weigh up strategically important decisions requires technical knowledge, interpersonal skills and professionalism of the highest standards. ZAG possesses these traits in abundance.

Clients benefit from our superior judgment and insight into a diverse range of areas, including meeting regulatory obligations, managing day-to-day affairs, ensuring good corporate governance and completing corporate and financing transactions.
